Corona Saviours

PROBLEM STATEMENT

The COVID 19 Pandemic arrived in Pakistan in third week of February 2020 and despite efforts at prevention and containment, cases have been identified in increasing numbers across multiple locations in all regions of the country. The emerging picture is one where a large number of COVID 19 infections are likely in the absence of immediate containment measures including social distancing and restricted movement.

ITA has initiated a campaign for mobilizing **Children and Youth** for giving powerful information for Preventing Corona - making **Behaviour Change** a reality. This campaign is aiming to spread awareness and authentic information among the communities especially children and Youth to face this Pandemic **Collectively** and to support the Government, our society, this world and ultimately the humanity.

Objectives:

- To play our vital role to over this pandemic
- To disseminate the accurate information and procedure to ensue to safety of everyone
- To overcome the In-correct Information being promoted on social media regarding COVID-19
- To use the social media as strong medium to reach maximum people
- To engage maximum voices including our Goodwill Ambassadors, Children and Youth Champions to stand with us to fight against Caronavirus
- To strengthen the capacities of children with proper life skills to safe their selves and their families at home
- To use pictures, posters, short videos and animated videos as strong tools for effective communication and awareness

Who?

Age Groups: 8 -18 and 19-30

What do they do?

Actively spread the messages for behaviour change during the COVID -19 or Corona Crisis affecting us everywhere in our homes, community and neighborhoods.

Who will send you the messages/information sheets for action?
