

Specification of bags (ACA awards):

The required backpacks should have:

1. design suitable for girls and boys
2. Clean and appropriate space on the front side of bag for Aawaz II branding and a colored image to go on the front of the backpack will be shared for branding purpose.
3. Made from durable, high-quality synthetic fabric such as parachute (polyester, nylon or mix of these) with a slightly textured, water-resistant finish to withstand daily wear and varying weather conditions.
4. Design should include a structured main compartment with sufficient capacity for books, documents, files, etc., along with smooth, heavy-duty zippers for long-term use.
5. Preferably a padded back panel and adjustable, cushioned shoulder straps to ensure comfort during extended use.
6. Additional features should include side mesh pockets for water bottles or small items, a zippered front pocket, a sturdy top handle, and reinforced base stitching to enhance durability.
7. The overall colour palette should be neutral (e.g., navy, charcoal, or black).
